EDUCATION RECORDS

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age (“eligible students”) certain rights with respect to the student’s educational records. They are:

1. The right to inspect and review the student’s educational record within 45 days of the day the Chester County School System receives a request for access. Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the record may be inspected.
2. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate or misleading. Parents or eligible students may ask the Chester County School System to amend a record that they believe is inaccurate or misleading. They should write the

school principal, clearly identify the part of the record that they want changed, and specify why it is inaccurate or misleading. If the Chester County School System decides not to amend the record as requested by the parent of eligible student, the Chester County School System will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent FERPA and other federal laws authorize disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is person employed by the Chester County School System as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the Chester County School System has contracted to perform a special tasks (such as an attorney, auditor, medical consultant, or therapist); or a parent serving on an official committee, such as disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the Chester County School System discloses educational records without consent to officials of another school district in which a student seeks or intends to enroll. In addition, federal laws* require schools to disclose names, addresses, and telephone numbers to military recruiters upon request, unless parents have requested in writing that information not be released.

4. The right to file a complaint with the U. S. Department of Education concerning alleged failures by the Chester County School System to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance, U. S. Department of Education, 400 Maryland Avenue, Washington, DC 20202-4605.

NOTIFICATION OF DIRECTORY INFORMATION

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that the Chester County School System, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child's records. However, the Chester County School System may disclose appropriately designated "directory information" without written consent, unless you have advised the System to the contrary in accordance with the System procedures. The primary purpose of directory information is to allow the Chester County School System to include this type of information from your child's education records in certain school publications. Examples include:

- A playbill, showing your student's role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent's prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the *Elementary and Secondary Education Act of 1965 (ESEA)* to provide military

recruiters, upon request, with three directory information categories – names, addresses and telephone listings-unless parents have advised the LEA that they do not want their student’s information disclosed without their prior written consent. *

If you do not want the Chester County School System to disclose directory information from your child’s education records without your prior written consent, you must notify the System in writing by September 1. Forms for this purpose will be available at each school and at the Chester County Board of Education, P.O. Box 327, Henderson, TN 38340.

The Chester County School System has designated the following information as directory information:

Student’s name	Participation in officially recognized activities and sports
Address	Weight and height of members of athletic teams
Telephone listing	Degrees, honors, and awards received
Electronic mail address	The most recent educational agency or institution attended
Photograph	Major field of study
Date and place of birth	Dates of attendance
Grade level	

*These laws are: Section 9528 of the ESEA (20 U.S.C. 7908), as amended by the *No Child Left Behind Act Of 2001* (P.L. 107-110), the education bill, and 10 U. S.C. 503, as amended by the section 544, the *National Defense Authorization Act for Fiscal Year 2002* (P.L. 107-107), the legislation that provides funding for the Nation’s armed forces.

NOTIFICATION OF RIGHTS UNDER THE PROTECTION OF PUPIL RIGHTS AMENDMENT (PPRA)

PPRA affords parents certain rights regarding our conduct of surveys, collection and use of information for marketing purposes, and certain physical exams. These include the right to:

Any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical exam or screening permitted or required under State law; and

3. Activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.

 3. Instructional material used as part of the educational curriculum.

These rights are to transfer from the parents to a student who is 18 years old or an emancipated minor under State law.

The Chester County School System has developed policies in consultation with parents, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes. The Chester County School System will directly notify parents of these policies at least annually at the start of each school year and after any substantive changes. The Chester County School System will also directly notify, such as through U. S. Mail or email, parents of students who are scheduled to participate in the specific activities or surveys noted below and will provide an opportunity for the parent to opt his or her child out of participation of the specific activity or survey. The Chester County School System will make this notification to parents at the beginning of the school year if the District has identified the specific or approximate dates of the activities or surveys at that time. For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys and opportunity to opt their child out of such activities and surveys. Parents will also be provided an opportunity to review any pertinent surveys. Following is a list of the specific activities and surveys covered under this requirement:

- Collection, disclosure, or use of personal information for marketing, sales, or other distribution.
- Administration of any protected information surveys not funded in whole or in part by the U. S. Department of Education.
- Any non-emergency, invasive physical examination or screening as described above.

Parents who believe their rights have been violated may file a complaint with:

Substitutes are assigned on a daily basis unless a longer duration is specified. appropriate, substitutes will be retained during the course of your absence.

Staff members may, at the time of the reported absence, request a particular substitute. Final decisions regarding substitute use or non-use will be made by the administration. Under no circumstances may staff members arrange coverage through personal arrangements with substitutes or others either for all day or temporary absences from their duties.

Substitute coverage for absences during work hours due to illness or emergency will be arranged as needed upon notification to the building principal.

An absence report form must be completed and returned to the school secretary for all staff absences.

Paid and unpaid leaves are provided in accordance with negotiated agreements, established Board policy, and state law.

Custodians, maintenance workers, and bus drivers should notify Britt Eads for substitutes.

Food service employees should notify their cafeteria manager.

ACCIDENT/INCIDENT REPORTS

All accidents/incidents occurring on district property, school buses or during the course of school-sponsored activities, including field trips and other away events, are to be reported to the building principal/supervisor immediately.

Reports should cover property damage as well as personal injury.

A completed accident report form must be submitted to the building principal/supervisor and superintendent within 24 hours or the next scheduled district workday, as appropriate.

In the event of a work related accident or injury resulting in a hospital admission where medical treatment other than first aid is provided, the building principal will inform the director. If the hospital admission is for more than three (3) employees, the Tennessee Occupational Safety and Health Division (TOSHA) must be notified as required by law.

All accidents/incidents will be promptly investigated and corrective measures implemented as appropriate.

ADMISSION TO DISTRICT EXTRACURRICULAR ACTIVITIES

Professional employees shall be admitted, without charge, to regular season sporting events hosted by Chester County Schools. Special events such as tournaments and the football jamboree, in which multiple schools share the gate receipts, are excluded. Employees are expected to assist in the supervision of students and in general crowd control as needed while attending such events.

ANNOUNCEMENTS

School level and system level announcements are made via intercom, campus mail, or system e-mail. All staff with e-mail accounts are required to check their campus mailbox or e-mail at least once daily.

BREAKS

Scheduled breaks are provided to all support employees to ensure safety, efficiency and to meet the requirements of law. All support staff members who work four or more consecutive hours are entitled to one 15-minute break. Those working eight-hour days are entitled to two 15-minute breaks. Employees are expected to adhere to the break schedule established by the building principal/supervisor. Deviation from the regularly scheduled break period requires prior approval.

CASH IN DISTRICT BUILDINGS

Money collected by staff as a result of fundraisers or other school related purposes shall be deposited with the school office whenever the sum accumulated in any one day by a class, staff member or others exceeds \$25. At no time are substantial amounts of money to be kept overnight or held during holidays or for long periods of time in classrooms.

Staff members should emphasize to students the importance of promptly depositing money collected with appropriate school officials.

COMMUNITY USE OF BUILDINGS

The buildings are available for use by community groups during the week and weekends when such use does not interfere with district programs. A fee schedule and regulations governing the use of buildings is available at the Board office. Principals are responsible for scheduling events at their school.

COMMUNICABLE DISEASE/BLOODBORNE PATHOGENS/INFECTION CONTROL PROCEDURES

The district provides for the reasonable protection against the risk of exposure to communicable disease to all staff while engaged in the performance of their duties. Infection control procedures, including provisions for handling and disposing of contaminated fluids have also been established through Board policy and administrative procedures for staff and student protection.

All staff shall comply with measures adopted by the district and with all rules set by the Tennessee Department of Health and the county health department.

Staff members have a responsibility to report to the district when infected with a communicable disease unless otherwise stated by law.

HBV*/Bloodborne Pathogens Training and Immunization

Staff members designated as primary first aid providers, or who may otherwise incur occupational exposure to blood or other potentially infectious materials in conjunction with their assigned duties as determined by the district, will receive appropriate information and training as follows:

1. At the time of initial assignment to tasks where occupational exposure may take place;
2. At least annually thereafter and within one year of their previous training;
3. When changes such as modification of tasks or procedures or new tasks or procedures affect the staff

member's occupational exposure.

Additionally, HBV vaccination will be made available to all staff that has been identified by the district as having occupational exposure. Report any occupational exposure to bloodborne pathogens to the safety director (Britt Eads). Following a report of an exposure incident, the district will immediately make available to the exposed staff member a confidential medical evaluation and follow-up.

Infection Control Procedures

The district has established appropriate hygienic and sanitation practices as follows:

1. Standard precautions are to be followed at all times. Standard precautions require the assumption that staff and students approach infection control as if all direct contact with human blood and bodily fluids is known to be infectious for HIV*, HBV and/or bloodborne pathogens.
2. Whenever possible, students should be directed to care for their own minor bleeding injury. This includes encouraging students to apply their own band-aids. If assistance is required, band-aids may be applied after removal of gloves if caregiver will not come into contact with blood or wound drainage.
3. Food and Drug Administration (FDA) approved gloves are required for all tasks in which an individual may come into contact with blood or other potentially infectious materials. Such tasks include cleaning body fluid spills, emptying trashcans, handling sharps/containers, handling contaminated broken glass, cleaning contaminated equipment and handling contaminated laundry/clothing. This also includes assisting with any minor wound care, treating bloody noses, handling clothes soiled by incontinence, diaper changing and cleaning up vomit.
4. Immediate, complete and effective hand washing with soap and running water of at least 30 seconds duration should follow any first aid or health care given a student or contact with potentially infectious materials.
5. If exposure to blood or other potentially infectious materials occurs through coughing, any first-aid procedure or through an open sore or break in the skin, thorough washing, preferably with germicidal soap if necessary.
6. In the event hand washing facilities are not readily available, thorough cleaning using an antiseptic cleanser and clean cloth/paper towels or antiseptic towelettes provided by the district as an alternative is necessary. In the event alternatives are used, hands must be washed with soap and running water as soon as feasible.
7. Any surface contaminated with blood or other potentially infectious materials must be cleaned after each use and at the end of the day with soap and water and then rinsed with an Environmental Protection Agency (EPA) ** approved disinfectant following labeling instructions for use, or a freshly made solution of one part bleach to nine parts water, and allowed to air dry. Other disinfectants as recommended by the Center for Disease Control may be used. These surfaces include equipment, counters, mats (including those used in physical education and athletic events), toys or changing tables.
8. An EPA approved disinfectant must be used when cleaning fluids such as blood or vomit from the

floor or other such contaminated surfaces.

9. Contaminated laundry such as clothing and towels must be placed and transported in bags and containers in accordance with the district's standard precautions. All such items must be laundered in hot or cold water and soap and placed in a dryer.
10. Needles, syringes, broken glassware and other sharp objects found on district property must not be picked up by students at any time, nor by staff without appropriate puncture-proof gloves, or mechanical device such as a broom, brush and dust pan. Any such items found must be disposed of in closable puncture-resistant, leak proof containers that are appropriately labeled or color-coded.
11. All wastebaskets used to dispose of potentially infectious materials must be lined with a plastic bag liner that is changed daily.
12. Gloves and repellent gowns, aprons or jackets are required for tasks in which exposure to blood or other potentially infectious materials can be reasonably anticipated to contaminate street clothing. Type and characteristics of such protective clothing will depend on the task. Such tasks may include diapering/toileting with gross contamination, assisting with wound care, sorting or bagging contaminated laundry/clothing and disposing of regulated waste with gross contamination.
13. Maximum protection with gloves, face and/or eye protection and gowns are required whenever splashes, spray, spatter or droplets of blood or other potentially infectious materials may be generated and eye, nose or mouth contamination can be reasonably anticipated. Such tasks may include feeding a student with a history of spitting or forceful vomiting and assisting with severe injury and wound with spurting blood.
14. If a first aid situation occurs, student should report to a person in authority, staff should report to a supervisor.

** HIV - Human Immunodeficiency Virus
AIDS - Acquired Immune Deficiency Syndrome
HBV - Hepatitis B Virus*

*** Disinfectants which can be used include Lysol, Purex, Clorox, Tough Act bathroom cleaner, Dow bathroom cleaner, Real Pine liquid cleaner, Pine Sol, Spic and Span, Tackle liquid, Comet and other products with EPA numbers.*

COMPLAINTS/GRIEVANCES/HARASSMENT

Staff Complaints

Staff member complaints that a violation, misinterpretation or inappropriate application of district personnel policies and/or administrative regulations has occurred should be directed to the building principal or immediate supervisor for informal discussion and resolution.

If the complaint is not resolved informally, formal complaint procedures may be initiated by staff in accordance with Board policy and administrative procedures.

Student/Parent Complaints

The district recognizes that complaints, regarding staff performance, discipline, grades, student progress, and homework assignments, will be made by students and parents from time to time. Every effort will be made to ensure that such complaints are handled and resolved informally and as close to their origin as possible. Students, parents and others with complaints will be encouraged to discuss the complaint directly with the staff member. All such meetings should be held in confidence and not in the presence of others.

If the complaint is not informally resolved, staff should advise the complainant that he/she may submit the matter directly to the building principal or immediate supervisor, as appropriate. The complainant will be provided with necessary formal complaint procedure guidelines in accordance with Board policy. When a complaint is made directly to the Board as a whole or to an individual Board member, it will be referred to the director of schools for appropriate building administrator follow-up.

All staff members should familiarize themselves with Board policy and applicable provisions of administrative procedures related to the handling of complaints.

Grievances: Addressed in Board policy # 5.501 and # 5.5011

Harassment/Discrimination - Grievances should be put in writing and directed to the:

Jon Frye
Chester County Board of Education
PO Box 327
Henderson, TN 38340
Phone: 731-989-5134

Professional Personnel – Grievances by licensed personnel are governed by School Board policy # 5.501.

Classified Personnel – Informal procedures should be used whenever possible and at the level closest to the problem. When informal procedures are not adequate then formal grievances should be placed in writing and follow the procedures in Board policy # 5.5011.

Harassment

Harassment is strictly prohibited on district property including non-district property while a staff member is at any district-sponsored, district-approved or district-related activity or function, such as field trips or athletic events, in which students are under the control of the district or where the staff member is engaged in district business.

Harassment includes, but is not limited to, harassment on the basis of race, color, religion, national origin, age, disability and sex.

Sexual harassment includes, but is not limited to, unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature when:

1. The staff members' submission to the conduct or communication is made a term or condition of employment; or
2. The staff member's submission to, or rejection of, the conduct or communication is the basis for decisions affecting employment and assignment; or
3. The conduct or communication has the purpose or effect of substantially interfering with an individual's work performance; or
4. The conduct or communication has the effect of creating an intimidating, hostile or offensive working environment.

A staff member whose behavior is found to be in violation of Board policy may be subject to discipline up to and including dismissal. A student whose behavior is found to be in violation of Board policy may be subject to discipline up to and including expulsion.

Any staff member who is subject to, or knows of, such harassment is directed to notify the principal, Director of Student and Employee Relations, or Director of Schools immediately. If the complaint is not satisfactorily settled, the staff member may file a complaint directly with the Tennessee Department of Labor, Civil Rights Division or with the U.S. Department of Labor, Equal Employment Opportunity Commission. Such complaints may also be filed with the appropriate enforcement agency, in lieu of the district's complaint process, at any time, as provided by law.

There will be no retaliation by the district against any person who, in good faith, reports harassment.

Board policy # 5.500 gives full details about harassment of employees.

CONFERENCES

Planned conferences between teachers and parents are essential to the district's efforts to further understanding and close cooperation between the home and school. Parent-teacher conferences are scheduled in October. Conferences should be treated as an opportunity for constructive, mutual exchange of information and ideas for the welfare and continued academic growth of the student.

Occasionally, teachers or parents may arrange for conferences outside regularly scheduled conference dates, to meet more immediate student needs. Teachers should be prepared to provide after-school or pre-school time to meet with students as necessary.

CONTRACTS AND COMPENSATION

Contracts for staff members will be executed for all full-time employees.

Salaries, including compensation for extracurricular assignments over and above the duties associated with a staff member's regularly assigned duties, will be determined in accordance with salary schedules and salary placement guidelines established by the Board and /or policies adopted by the Board.

It is the staff member's responsibility to provide all information necessary for placement on the salary schedule to the Board office in accordance with timelines established by the district.

COPYRIGHT

A variety of machines and equipment for reproducing materials to assist staff in carrying out their educational assignments are available to staff in both the school and home setting.

Infringement on copyrighted material, whether prose, poetry, graphic images, music audiotape, video or computer-programmed materials, is a serious offense against federal law, a violation of Board policy and contrary to ethical standards required of staff and students.

All reproduction of copyrighted material shall be conducted strictly in accordance with applicable provisions of law. Unless otherwise allowed as "fair use" under federal law, permission must be acquired from the copyright owner prior to reproduction of material in any form.

CRIMINAL RECORDS CHECKS/FINGERPRINTING

WORKERS' COMPENSATION-- CLAIMS REPORTING

All Workers' Compensation claims should be reported as promptly as possible as benefits to the injured worker must begin within 20 days from the time the employer is notified of injury. Delays in reporting can result in fines of up to 20% of the benefits due. All claims should be reported electronically. When reporting, please record only the information given you by the injured worker. The adjuster will contact you to gather additional information.

Medical Benefits

The Workers' Compensation Act allows the employer to pre-designate at least three physicians not associated together in practice to treat the employee. You should have a list of medical facilities in your community, but should you need assistance with the selection process, contact the TNRMT Workers' Compensation Department at 1-888-743-4336. If the injured worker feels medical treatment is necessary, the worker must be given a copy of form C42 listing the designated physicians, and except in cases of emergency the worker should sign the form. Please forward a copy of the signed form to TNRMT. If requirements of the Act have been followed, the injured employee is obligated to accept medical care from the list of approved facilities. If they do not, it is possible that the charges will not be paid under Workers' Compensation.

Income Benefits

If the injured worker is required to miss more than seven days, income benefits will be paid at the rate of 66 2/3% of the average wage. The TNRMT adjuster will advise you of the information needed to process a claim for income benefits. Income benefits are usually paid every two weeks.

Communications

Even though an adjuster will contact the injured employee on a frequent basis to ascertain medical progress, etc., it has found to be extremely beneficial for a representative of the employer to maintain periodic contact with the employee as well.

The adjuster will also contact you periodically to provide status reports, but please call TNRMT if you become concerned about the status of the claim.

II. LEAVE INFORMATION

Family and Medical Leave Act (FMLA)

Eligibility

In accordance with federal law, staff members employed by the district for the previous 12 months and who have worked at least 1,250 hours during the year preceding the start of the leave may be eligible for FMLA leave. The 1,250 hours must be hours actually worked.

Length/Purpose of Leave

Employees eligible for FMLA under federal law are entitled to take 12 work weeks of leave within a 12 month period for the:

1. Birth of the employee's child (eligibility expires 12 months after the birth);
2. Placement of a child for adoption or foster care; (eligibility expires 12 months after placement)
3. Care of a spouse, child or parent with a serious health condition; or
4. The staff member's own serious health condition.

Military Family Leave Entitlements

Eligible employees with a spouse, son, daughter, or parent on active duty or call to active duty status in the National Guard or Reserves in support of a contingency operation may use their 12-week leave entitlement to address certain qualifying exigencies. Qualifying exigencies may include attending certain military events, arranging for alternative childcare, addressing certain financial and legal arrangements, attending certain counseling sessions, and attending post-deployment reintegration briefings.

FMLA also includes a special leave entitlement that permits eligible employees to take up to 26 weeks of leave to care for a covered service member during a single 12-month period. A covered service member is a current member of the Armed Forces, including a member of the National Guard or Reserves, who has a serious injury or illness incurred in the line of duty on active duty that may render the service member medically unfit to perform his or her duties for which the service member is undergoing medical treatment, recuperation, or therapy; or is in outpatient status; or is on the temporary disability retired list.

Calculating the 12-Month Period for Leave

The district will use the same method for calculating the 12-month period in which the 12-work week FMLA leave entitlement occurs for all employees. The district will use the school fiscal year (July 1 – June 30) for determining such leaves.

Paid/Unpaid Leave

Family leave under federal law is generally unpaid. The district requires the employee to use any accrued sick leave, vacation or personal leave days (or other paid time established by Board policy and/or negotiated agreements) in that order before taking FMLA leave without pay for the leave period.

The district will notify the employee that the requested leave has been designated as FMLA leave and, that accrued paid leave shall be used during the leave period. Such notification will be given to the employee prior to the commencement of the leave or within two working days of the employee's notice of an unanticipated or emergency leave.

If the district does not have sufficient information to make a determination of whether the leave qualifies as FMLA leave (the employee may be required to provide additional information to allow a determination of whether the leave qualifies under FMLA), the district will provide the required notice promptly when the information is made available, but no later than two working days after the district has received the necessary information. Oral notices will be confirmed in writing no later than the following payday. If the payday is less than one week after the oral notice is given, written notice will be provided no later than the subsequent payday.

Application

Staff members requesting FMLA leave shall submit to the district a written request at least 30 days prior to the anticipated leave date if the leave is foreseeable based on planned medical treatment. The notice shall include the anticipated starting and ending dates of the requested leave and an explanation of the need for the leave. Staff members are expected to schedule treatment, including intermittent leave and reduced hours, so as not to unduly disrupt the operation of the district.

If advanced notice of FMLA leave, under federal law, is not possible, for example due to a change in circumstances or medical emergency, notice must be given as soon as practicable. "As soon as practicable" means at least oral notification within one or two business days of when the need for leave becomes known to the employee.

Failure to provide the required notice for FMLA leave may result in the district delaying the staff member's leave for up to 30 days after the notice is ultimately given.

Medical Certification

If the staff member provides 30 or more day's notice when applying for FMLA leave, he/she may be required to provide medical documentation when appropriate to support the request for leave before the leave begins. The district will provide written notice to employees of this requirement within three working days of the staff member's request for leave.

Under federal law, a second medical opinion at the district's expense may be required whenever the district has reason to doubt the validity of the initial medical opinion. The health care provider may be selected by the district. Should the first and second medical certifications differ, a third opinion may be required. The district and the employee will mutually agree on the selection of the health care provider for a third medical certification. The third opinion will be final. Second and third opinions and the actual travel expenses for a staff member to obtain such opinions will be paid for by the district.

If the leave is for the purpose of an employee's own serious health condition, he/she may also be requested to provide a fitness for duty medical release from the health care provider before returning to work. The employee may be required to report periodically on the employee's status and intent to return to work.

Continuation of Health Insurance Benefits

Under FMLA leave, group health insurance benefits and premium payments will be continued on the same basis as coverage would have been provided and premiums paid in the absence of leave. The district will continue to pay the district's contribution toward the employee's premium. If the employee uses accrued paid leave, premiums will continue to be deducted from the payroll. The employee will continue to pay the employee's share of premiums, if any. A 30-day grace period will be allowed for receipt of employee contributions. The district's obligation to maintain the employee's benefits will cease if the employee's contribution is more than 30 days late. The district will provide written notice that the premium payment is more than 30 calendar days late. Such notice will be provided within 15 calendar days before coverage is to cease.

Return to Work

Following an FMLA leave, a staff member is generally entitled to be returned to his/her former position or to an equivalent job with equivalent benefits, pay and other conditions of employment.

Enforcement

An employee may file a complaint with the U.S. Department of Labor or may bring a private lawsuit against an employer.

FMLA does not affect any Federal or State law prohibiting discrimination, or supersede any State or local law or collective bargaining agreement which provides greater family or medical leave rights.

FMLA section 109 (29 U.S.C. § 2619) requires FMLA covered employers to post the text of this notice. Regulations 29 C.F.R. § 825.300(a) may require additional disclosures.

In each situation, two (2) of the days earned may be used as personal days and the remainder as sick days. Any personal days not used during the year will convert to sick days and may accumulate up to a maximum of forty (40) days. These days are of no value other than use by the employee and are not transferable to another employee. Upon termination or disruption of service, the days are also terminated.

Bus drivers are paid an extra month's pay in lieu of sick leave, personal leave, in-service, and holidays.

All employees shall fill out leave forms immediately upon return to work. These forms shall be turned in to the Superintendent by the end of each month and a record of such days shall be kept for each employee.

All long-term leave shall be without pay except as may be covered by sick leave in the case of maternity and recuperative leaves. Employees shall have the opportunity to continue participation, at their own expense, in group insurance plans subject to any restrictions by the carrier.

Employees who take leave under the provisions of the Family Medical Leave Act (FMLA) shall have the same portion of their insurance premiums paid by the Board as is paid for active employees. This leave is limited to twelve (12) weeks during each fiscal year and is subject to use only after the employee has exhausted all sick and personal leave.

CLASSROOM SECURITY

When leaving the classroom, locker room or other work areas between classes or at the end of the day, teachers are expected to adjust heat/air conditioning, turn out the lights and secure all doors. Windows should also be secured at day's end.

All staff members are asked to refrain from keeping personal items of value in or about their desks. Purses should never be left unsecured. Students should be instructed to leave valuables at home. The district will not be responsible for the loss of or damage to, personal property due to such causes as fire, theft, accident or vandalism.

KEYS

Keys are issued to staff by the principal. In order to protect property, students and staff and to ensure the building is adequately secured when no authorized personnel are present, all staff members are expected to follow the following key control procedures:

1. The duplication of keys is prohibited;
2. Keys are not to be left unattended. Avoid leaving keys on desks, tables, in mailboxes, unattended coat pockets, etc.
3. Keys may not be loaned to students or to individuals not employed by the district. Under no circumstances should staff provide keys to students to "run errands", "unlock/lock" doors, etc.

LESSON PLANS

The quality of the instructional program reflects the effort invested by teachers in developing lesson plans consistent with district curriculum and appropriate to the individual needs of students.

Teachers are expected to prepare lesson plans on a weekly basis. Teachers may be required to provide copies of lesson plans to the office at reasonable times and intervals as determined by the principal.

Lesson plans should be of sufficient length and substance to allow a substitute teacher to carry on the course of study and to provide a means by which the building principal may monitor instruction to assure that the educational program in a particular class or activity is consistent with the district-approved course of study.

An up-to-date seating chart, class schedules and information identifying any classroom student aides or other special student needs should be included in all lesson plan books.

General plans, which cover the length of the course of study, should also be prepared and readily available for building principal and/or student and parent review. State curriculum standards should be available from the teacher at all times.

LICENSE REQUIREMENTS

Teachers offered employment in the district must present their original teaching license to the Director.

Applicants who fail to present their license prior to the beginning of school or the first day employment is to begin will not be employed until such license has been submitted.

Licensed staff members are required to submit copies of all license endorsements to the central office. It is the responsibility of each licensed staff member to keep his/her license and all endorsements current. Failure to maintain license and endorsements may invalidate the contract with the district.

MEETINGS

Staff meetings are scheduled for the purpose of organization and communication of business that typically cannot be handled through staff bulletins, departmental or committee structure.

All staff are expected to attend staff meetings unless prior arrangements have been made with the principal. Staff members are expected to schedule their time accordingly to not conflict with these meetings.

RETIREMENT

To assist the district in its planning efforts, staff members considering retirement are encouraged to notify the district as early as possible, preferably in February on the survey form provided by the Board for all employees to indicate their plans for the following year.

STAFF CONDUCT

All staff members are expected to conduct themselves at all times in a manner that conforms to Board policy and administrative procedures.

Additionally, all licensed staff are expected to adhere to the *Tennessee Education Association Code of Ethics of the Education Profession*.

Preamble

The educator, believing in the worth and dignity of each human being, recognizes the supreme importance of the pursuit of truth, devotion to excellence and the nurture of democratic principles. Essential to these goals is the protection of freedom to learn and to teach and the guarantee of equal educational opportunity for all. The educator accepts the responsibility to adhere to the highest ethical standards.

The educator recognizes the magnitude of the responsibility inherent in the teaching process. The desire for the respect and confidence of one's colleagues, of students, of parents and of the members of the community provides the incentive to attain and maintain the highest possible degree of ethical conduct.

The *Code of Ethics of the Education Profession* indicates the aspiration of all educators and provides standards by which to judge conduct.

Principle I - Commitment to the Student

The educator strives to help each student realize his or her potential as a worthy and effective member of society. The educator therefore works to stimulate the spirit of inquiry, the acquisition of knowledge and understanding and the thoughtful formulation of worthy goals.

In fulfillment of the obligation to the student, the educator -

1. Shall not unreasonably restrain the student from independent action in the pursuit of learning.
2. Shall not unreasonably deny the student access to varying points of view.
3. Shall not deliberately suppress or distort subject matter relevant to the student's progress.
4. Shall make reasonable effort to protect the student from conditions harmful to learning or to health and safety.
5. Shall not intentionally expose the student to embarrassment or disparagement.
6. Shall not, on the basis of race, color, creed, sex, national origin, marital status, political or religious beliefs, family, social or cultural background or sexual orientation unfairly;
 - a. Exclude any student from participation in any program.
 - b. Deny benefits to any student.
 - c. Grant any advantage to any student.
7. Shall not use professional relationships with students for private advantage.
8. Shall not disclose information about students obtained in the course of professional service, unless disclosure serves a compelling professional purpose or is required by law.

Principle II - Commitment to the Profession

The education profession is vested by the public with a trust and responsibility requiring the highest ideals of professional service.

In the belief that the quality of the services of the education profession directly influences the nation and its citizens, the educator shall exert every effort to raise professional standards, to promote a climate that encourages the exercise of professional judgment, to achieve conditions which attract persons worthy of the trust to careers in education, and to assist in preventing the practice of the profession by unqualified persons.

In fulfillment of the obligation to the profession, the educator -

1. Shall not in an application for a professional position deliberately make a false statement or fail to disclose a material fact related to competency and qualifications.
2. Shall not misrepresent his or her professional qualifications.
3. Shall not assist entry into the profession of a person known to be unqualified in respect to character, education or other relevant attribute.

4. Shall not knowingly make a false statement concerning the qualifications of a candidate for a professional position.
5. Shall not assist a non-educator in the unauthorized practice of teaching.
6. Shall not disclose information about colleagues obtained in the course of professional service unless disclosure serves a compelling professional purpose or is required by law.
7. Shall not knowingly make false or malicious statements about a colleague.
8. Shall not accept any gratuity, gift, or favor that might impair or appear to influence professional decisions or action.

STAFF DRESS AND GROOMING

The Board of Education adopted a strict dress code for students in grades 4-12 effective beginning with the 2009-2010 school year. The board does not feel that employees should necessarily be dressed like students but should be held to standards that are no lower than those for students. The board recognizes that different job responsibilities may require different types of dress. Professional employees, paraprofessionals, and office personnel should be held to a higher standard than other employees. All employees are expected to dress and groom in a clean, neat, and modest manner so as to enhance rather than distract from the operations of the schools.

The first level of an appeal shall be to the director of schools. The second and final level will be to the board of education during one of the regularly scheduled meetings.

STAFF ETHICS

Staff members are prohibited from engaging in, or having a financial interest in, any activity that may be perceived as a conflict of interest with their duties and responsibilities as employees of the district.

This means that:

1. Staff members shall not solicit for financial remuneration from students, parents or other staff;

Material Safety Data Sheets (MSDS), which accompany any hazardous substance used in the school setting, are maintained on file in the office and elsewhere in the building as necessary and readily available to any staff member who must handle such materials or who may have been exposed to such products.

 - c. An employee shall not remove guards or render methods of guarding inoperative except for the purpose of adjustment, oiling, repair or setting up a new job;
 - d. Employees shall report to their supervisor any guard or method of guarding that is not properly adjusted or not accomplishing its intended function;

9. Before leaving a job, workers shall correct, or arrange to give warning of, any condition that might result in injury to others unfamiliar with existing conditions;
10. Good housekeeping methods shall be observed in all operations. Materials shall be so handled and stored as to minimize falling, tripping or collision hazards;
11. Working and storage areas and passageways shall be kept free of unnecessary obstructions. No loose object shall be placed in any area where its presence will necessitate employees crowding between such objects as moving machinery, steam pipes or other objects with which contact would be dangerous;
12. Any materials that might cause an employee to slip or fall shall be removed from floors and other treading surfaces immediately or suitable means or methods shall be used to control the hazardous condition;
13. All sharp, pointed or hazardous projections in work areas shall be removed or rendered harmless.

STAFF/STUDENT RELATIONS

Staff members shall maintain professional relationships with students at all times and develop wholesome and constructive relationships with them. Staff members shall be expected to regard each student as an individual and to accord each student the rights and respect that is his/her due.

Staff members shall promote a learning environment that encourages fulfillment of each student's potential in regard to his/her program, consistent with district goals and with optimal opportunities for students. This goal may be reached by adapting instruction to individual needs, by:

1. Insisting on reasonable standards of scholastic accomplishment for all students;
2. Creating a positive atmosphere in and out of the classroom;
3. Extending the same courtesy and respect that is expected of students; and
4. Treating all students with consistent fairness.

Staff members shall use good judgment in their relationships with students beyond their work responsibilities and/or outside the school setting and shall avoid excessive informal and social involvement with individual students. Any appearance of impropriety shall be avoided. Sexual relationships between employees and students shall be prohibited.

School Board policy # 6.304

STUDENT DISCRIMINATION/HARASSMENT AND BULLYING/INTIMIDATION AND CYBERBULLYING

The Chester County Board of Education has determined that a safe, civil, and supportive environment in school is necessary for students to learn and achieve high academic standards. In order to maintain that environment, acts of bullying, cyber-bullying, discrimination, harassment, hazing or any other victimization of students, based on any actual or perceived traits or characteristics, are prohibited. This policy shall be disseminated annually to all school staff, students, and parents. This policy shall cover employees, employees' behaviors, students and students' behaviors while on school property, at any school-sponsored activity, on school-provided equipment or transportation, or at any official school bus stop. If the act takes place off school property or outside of a school-sponsored activity, this policy is in effect if the conduct is directed specifically at a student or students and has the effect of creating a hostile educational environment or otherwise creating a substantial disruption to the education environment or learning process.

Building administrators are responsible for educating and training their respective staff and students as to the definition and recognition of violations of this policy.

DEFINITIONS

Bullying/Intimidation/Harassment - An act that substantially interferes with a student's educational benefits, opportunities, or performance, and the act has the effect of:

- Physically harming a student or damaging a student's property;
- Knowingly placing a student or students in reasonable fear of physical harm to the student or damage to the student's property;
- Causing emotional distress to a student or students; or
- Creating a hostile educational environment.

Bullying, intimidation, or harassment may also be unwelcome conduct based on a protected class (race, nationality, origin, color, gender, age, disability, religion) that is severe, pervasive, or persistent and creates a hostile environment.

Cyber-bullying - A form of bullying undertaken through the use of electronic devices. Electronic devices include, but are not limited to, telephones, cellular phones or other wireless telecommunication devices, text messaging, emails, social networking sites, instant messaging, videos, web sites or fake profiles.

Hazing - An intentional or reckless act by a student or group of students that is directed against any other student(s) that endangers the mental or physical health or safety of the student(s) or that induces or coerces a student to endanger his/her mental or physical health or safety. Coaches and other employees of the school district shall not encourage, permit, condone or tolerate hazing activities.³

“Hazing” does not include customary athletic events or similar contest or competitions and is limited to those actions taken and situations created in connection with initiation into or affiliation with any organization.

COMPLAINTS AND INVESTIGATIONS

Alleged victims of the above-referenced offenses shall report these incidents immediately to a teacher, counselor or building administrator.² All school employees are required to report alleged violations of this policy to the principal/designee. All other members of the school community, including students, parents, volunteers, and visitors, are encouraged to report any act that may be a violation of this policy. While reports may be made anonymously, an individual's need for confidentiality must be balanced with obligations to cooperate with police investigations or legal proceedings, to provide due process to the accused, to conduct a thorough investigation or to take necessary actions to resolve a complaint, and the identity of parties and witnesses may be disclosed in appropriate circumstances to individuals with a need to know.

The principal/designee at each school shall be responsible for investigating and resolving complaints. The principal/designee is responsible for determining whether an alleged act constitutes a violation of this policy, and such act shall be held to violate this policy when it meets one of the following conditions:

- It places the student in reasonable fear or harm for the student's person or property;
- It has a substantially detrimental effect on the student's physical or mental health;
- It has the effect of substantially interfering with the student's academic performance; or
- It has the effect of substantially interfering with the student's ability to participate in or benefit from the services, activities, or privileges provided by a school.

Upon the determination of a violation, the principal/designee shall conduct a prompt, thorough, and complete investigation of each alleged incident. Within the parameters of the federal Family Educational Rights and Privacy Act (FERPA) at 20 U.S.C. § 1232g, a written report on the investigation will be delivered to the parents of the complainant, parents of the accused students and to the Director of Schools.

RESPONSE AND PREVENTION

School administrators shall consider the nature and circumstances of the incident, the age of the violator, the degree of harm, previous incidences or patterns of behavior, or any other factors, as appropriate to properly respond to each situation.

A substantiated charge against an employee shall result in disciplinary action up to and including termination. A substantiated charge against a student may result in corrective or disciplinary action up to and including suspension.

An employee disciplined for violation of this policy may appeal the decision by contacting the Federal Rights Coordinator. Any student disciplined for violation of this policy may appeal the decision in accordance with disciplinary policies and procedures.

REPORTS

When a complaint is filed alleging a violation of this policy where there is physical harm or the threat of physical harm to a student or a student's property, the principal/designee of each middle school, junior high school, or high school shall report the findings and any disciplinary actions taken to the director of schools and the chair of the board of education.

By July 1 of each year, the director of schools/designee shall prepare a report of all of the bullying cases brought to the attention of school officials during the prior academic year. The report shall also indicate how the cases were resolved and/or the reasons they are still pending. This report shall be presented to the board of education at its regular July meeting, and it shall be submitted to the state department of education by August 1.

The director of schools shall develop forms and procedures to ensure compliance with the requirements of this policy and TCA § 49-6-1016.

RETALIATION AND FALSE ACCUSATIONS

Retaliation against any person who reports or assists in any investigation of an act alleged in this policy is prohibited. The administrator shall determine the consequences and appropriate remedial actions for a person who engages in retaliation after consideration of the nature, severity, and circumstances of the act.

False accusations toward another person as having committed an act prohibited under this policy are prohibited. The consequences and appropriate remedial action for a person found to have falsely accused another may range from positive behavioral interventions, up to and including suspension and expulsion.

SUPERVISION OF STUDENTS

Staff members are responsible for the supervision of all students while in school or engage in school-sponsored activities.

All teachers are expected to be in their classrooms prior to the arrival of students unless otherwise assigned. Under no circumstances are classrooms or other areas where students are under the supervision of assigned staff to be left unattended while students are present. Teachers who may need to temporarily leave the classroom or their assigned duties in an emergency situation while students are present are expected to contact the office to arrange for temporary coverage.

No other staff member may leave their assigned group unsupervised except as appropriate supervision arrangements have been made to take care of an emergency.

During school hours, or while engage in school-sponsored activities, students may be released only into the custody of parents or other authorized persons.

TUTORING

Teachers may not tutor their own students for extra pay except through programs run by the school system.

IV. STUDENT OPERATIONAL PROCEDURES

ADMINISTERING MEDICINES TO STUDENTS

Students who must take prescription and/or over-the-counter medication at school, on a temporary or regular basis, must provide a written request to administer medication, signed by the parent. The procedures for using these medicines are outlined in Board policy # 6.405.

All medication will be kept in locked storage in the office unless a student must carry medication on his/her person during the school day.

Generally, medication for students in grades K-12 will be administered by the school nurse, principal, designated staff, or self-administered as appropriate. Each time medication is administered a record noting date, time, amount and name of the staff member administering the medication must be made. In the event a student must carry an inhaler on his/her person during the school day, a statement signed by the physician and the parent must be provided to the office authorizing such use.

Teachers are expected to assist students scheduled for medication. If the student refuses to take medication, teachers or person in charge of administering medication shall notify the parent whenever possible. Attempts to contact parents must be documented as to date and time.

AIDS, HIV AND HBV* HEALTH EDUCATION

Parent, teachers, administration, local health department staff and others have developed an AIDS, HIV and HBV curriculum cooperatively. All teachers are expected to teach the age-appropriate curriculum annually in grades K-12 in accordance with established curriculum.

The purpose of the curriculum is to present current, accurate information to help students learn infection control procedures for preventing the spread of HIV/AIDS-causing virus and to assist them in making decisions about protecting their health and the health of others. The value of abstinence must be stressed.

ASSIGNMENT OF STUDENTS TO CLASSES

The assignment of students and classes to teachers is the responsibility of the principal. Parents have the right to discuss student class assignments with the counselor and principal.

Any request to change a student's assignment to a particular class by a student, parent or teacher should be referred to the principal.

CLASS INTERRUPTIONS

The district is committed to protecting instructional time. Class interruptions of any kind will be kept to a minimum. Students are not to be permitted to interrupt a class in session without authorization from the office. Intercom use is restricted to administrative use or administrative approved use only.

COMMUNICABLE DISEASES/STUDENTS WITH HIV, HBV, AIDS*

Protection from communicable disease is generally provided through immunization, exclusion or other measures provided for in the Minimum Rules and Regulations of the Tennessee State Board of Education and rules of the county health department. Services generally will not be provided students excluded unless otherwise required by law.

In those cases where a communicable disease is diagnosed and confirmed and the student would not be excluded from school, the district will inform the appropriate staff member to protect against the risk of exposure.

Students infected with HIV shall not be denied enrollment in school. If a student's parents/guardians choose to disclose the child's HIV status, all matters pertaining to that student will be under the direct supervision of the superintendent.

No information concerning an HIV infected student shall be divulged, directly or indirectly, to any other individual or group without the written consent of the parent/guardian. Staff members will be informed of a student's HIV infection on a "Need to Know" basis, as decided by the evaluation team with the written consent of the parent/guardian.

Under no circumstances shall information identifying a student with AIDS be released to the public.

**HIV - Human Immunodeficiency Virus, HBV - Hepatitis B Virus, AIDS - Acquired Immune Deficiency Syndrome*

CONTESTS FOR STUDENTS

The district cooperates with individuals, community organizations and agencies desiring to sponsor contests for students, when such activities can be integrated into the school program without disruption or loss of instructional time for the student and without imposing an unreasonable workload on staff. All such contests must be consistent with the purposes and educational aims of the district.

Teachers sponsoring such activities are responsible for the preparation and circulation of all informational materials and for other administrative work required in the grading, judging or evaluation of the participant's work.

The school may not be used to promote private or commercial interests. Nor may the school be used for the direct sales promotion of individual competitive goods or services.

Materials or activities initiated by private sources are to be referred to the principal for approval and will be judged on grounds of their direct contribution to educational values, factual accuracy and good taste.

CORPORAL PUNISHMENT

Principals, assistant principals, and teachers may use corporal punishment in a reasonable manner against any student for good cause in order to maintain discipline and order within the school system. The system will provide alternative discipline for students whose parents' request alternatives. All uses of corporal punishment shall comply with Board policy # 6.314.

Given the extensive use and the formal and informal promotion of alcohol, tobacco and drug use in society, the school has an obligation to provide drug education that emphasizes prevention, describes intervention and referral procedures and outlines consequences.

An age-appropriate alcohol/drug prevention curriculum is provided for all students in grades K-12 as a part of the health education curriculum.

FEATURE FILMS/VIDEOS

Principal approval is required prior to showing a feature film/video to students in district classrooms. Only films/videos rated [G, PG or PG-13] may be authorized for classroom use. Furthermore, the teacher must preview the film for inappropriate language and scenes. Films/videos containing inappropriate scenes or language shall **NOT** be shown.

As a close working relationship between the district and the home is essential to the accomplishment of this goal, regular communications with parents is essential.

Teachers should use a variety of communication devices including email, telephone and personal conferences as well as written grade reports to keep parents well informed. At the beginning of the grading period, students and parents are to be informed regarding the basis of the grades and the methods to be used in determining grades.

Grading shall be in accordance with rules of the State Board of Education, Board policy # 4.600 and # 4.601.

HOMEWORK

Teachers at all grade levels are encouraged to consistently assign homework, which is expected to increase in complexity with the maturity or grade level of the student.

Homework may refer to an assignment prepared during a period of supervised study in class or outside of class or which requires individual work in the home.

Homework is to be designed to improve learning, to aid in the mastery of skills and to stimulate interest on the part of the student.

The information for any homework assignment should be clear and specific so that the student can complete the assignment. Homework should not require the use of reference materials not readily available in most homes, school libraries or the public library. Homework should require the use of those materials only when the student has had instruction in such use.

MAKE-UP WORK

A student who has an absence from class shall be required to make up those assignments that he/she has missed. The student is expected to make arrangements with the teacher on his/her first day back in class for the work missed due to absence.

A student suspended from school shall be required to make up all work missed while under suspension. If the suspension occurs during the last ten (10) days of any term or semester, the student shall be permitted to take such final examinations or submit such required work as necessary to complete the course of instruction for that semester, subject to conditions prescribed by the principal.

MEDIA ACCESS TO STUDENTS

The media may interview and photograph students involved in instructional programs and school activities including athletic events. Such media access may not be unduly disruptive and must comply with Board policies and district goals.

Media representatives are required to report to the principal for prior approval before accessing students involved in instructional programs and activities not attended by the general public.

Information obtained by media representatives directly from students does not require parental approval prior to publication by the media. Parents who do not want their student interviewed or photographed by the media may direct their student accordingly.

Staff may release student information to the media only in accordance with applicable provisions of the education records law and Board policies governing directory information and personally identifiable information.

PROGRAM EXEMPTIONS

Students may be excused from a state-required program or learning activity for reasons of religion, disability or other reasons deemed appropriate by the district, upon the written request of the parent.

Parents may request that a student not be required to read a book, use certain materials, or participate in an activity that the parent finds objectionable. An alternative program of credit may be provided. Teachers are expected to work cooperatively with students, parents, counselors and other district staff in the development of such alternative learning activities as needed.

RESUSCITATION

No staff member may comply with any directive from parents or others, written or verbal, that life-sustaining emergency care be withheld from a student in need of such care while under the control and supervision of district staff.

Life-sustaining emergency care means any procedure or intervention applied by appropriately trained district staff that may prevent a student from dying who, without such procedure or intervention, faces a risk of imminent death. Examples of life-sustaining emergency care may include: efforts to stop bleeding, unblocking airways, mouth-to-mouth resuscitation and cardiopulmonary resuscitation (CPR).

In a life-threatening situation, staff members are expected to dial 911 for paramedic assistance and provide life-sustaining emergency care to any student requiring it in order to sustain life until relieved by paramedics or other appropriate medical personnel.

STUDENT ACTIVITY FUNDS

All monies raised or collected by and/or for school-approved student groups are to be receipted and deposited into a checking account administered by the business office. The principal and the group or club sponsor must approve all student activity fund expenditures.

All expenditures from a specific account of student activity funds, related to other school-recognized student groups, must be approved by the members of that organization and their staff sponsor. Funds derived from authorized clubs and organizations shall be expended to benefit the specific club or organization and, to the extent possible, to benefit those students currently in school who have contributed to the accumulation of the funds.

STUDENT CONDUCT

All students are to comply with district policy, written building and classroom rules, pursue the prescribed course of study, submit to the lawful authority of teachers and school officials and conduct themselves in an orderly manner at school during the school day and during school-sponsored activities.

In addition to adopted Board policies governing student conduct, administrative procedures specifying student conduct expectations have been established. These rules apply to actions which occur on district property; at any district-sponsored activity regardless of location; or when traveling to or from school for district-sponsored activities. Disregard of these rules constitutes grounds for suspension, expulsion or other reasonable disciplinary action.

All teachers are expected to review the student conduct rules contained in the Student Handbook and/or Student Code of Behavior and Discipline with their students during the first week of the school year.

Teachers may also develop student conduct rules unique to individual classrooms. All such rules must be consistent with district policy and local building administrative procedures governing student conduct and discipline. Classroom rules and consequences are to be reviewed with students, posted in classrooms and made available to parents.

Classroom rules and consequences are to be submitted to the building principal for review and approval.

STUDENT DETENTION

Principals may detain a student after school hours for disciplinary reasons provided the parent has been notified of the detention and, in the case of bus students, prior arrangements have been made for the student's transportation home. Usually a one day notice is given to parents for transportation purposes. Students who are detained after school are not to be left unsupervised during their detention.

STUDENT DISCIPLINE

Student discipline, whether in the classroom, building, district grounds or at district-sponsored activities regardless of location, is the responsibility of all staff. Student conduct infractions are listed in the Student Handbook and/or Student Code of Conduct. Principals and teachers shall follow the guidelines in the Student Code of Conduct in administering discipline.

STUDENT DISMISSAL PRECAUTIONS

No teacher may permit any student to leave class/school prior to the regular hour of dismissal except as may be authorized by the office.

STUDENT HANDBOOK

A student handbook is issued to students at the beginning of each new school year and when new students move into the district at other times of the year. Students who have been in the system received a handbook at the time of the latest revision.

All staff are expected to familiarize themselves with the general information, administrative rules and procedures pertaining to students as set forth in the student handbook and in Board policy.

Teachers are expected to review the handbook with students during the days/times designated by the building principal.

STUDENT PERFORMANCES

Teachers are encouraged to arrange for individual student and group public performances when such performances contribute to the educational process and are consistent with district and course goals.

All performances involving student must be approved by the principal and should be scheduled to minimize conflict with other scheduled activities or classes within the school.

The extended use of one particular group of students is generally discouraged. Teachers are expected to enforce all student conduct and discipline rules when engaged in such activities.

STUDENT TRANSPORTATION IN PRIVATE VEHICLES

Transportation of students to and from extracurricular activities sponsored by the district shall be provided by the district's transportation system in accordance with district policy. The Board recognizes that volunteer parent drivers are often needed to use their private vehicles for school purposes. The volunteer parent drivers who use a private vehicle must provide proof of vehicle liability insurance coverage in the form of an insurance certificate in a sufficient amount, as determined by the director of schools. Parents, employees and other designated adults may be permitted to use private vehicles to transport students other than their own on field trips or other school activities only with prior approval by the principal.

No student participants shall be allowed to drive to out of town school events. Student participants shall only be released to parents or adults designated by the parents for return trips to the school.

No student is to be permitted to perform district business with his/her own vehicle, a staff member's vehicle or a district-owned vehicle.

Upon notification by the office of a student's withdrawal from school, teachers are expected to complete the student withdrawal form, including grade earned to date.

Teachers are expected to make a complete accounting of any unreturned or damaged books, locks, materials, supplies, equipment or other district property including replacement costs, if known.

In accordance with law and district policy, certain education records may be withheld if fees and fines are not paid.

VISITORS

Visitors must report to the school office to check in except for public performances by school groups or teams. Students are not permitted to bring visitors to school. Staff members are expected to report any unauthorized person on school property to the principal.

V. SPECIAL PROGRAMS/SERVICES

ASSESSMENT PROGRAMS

The district's assessment program has been developed to meet state requirements and local district needs. Assessment results are used to identify individual student's learning strengths and weaknesses and as a basis for planning learning activities.

Results are used as a factor in determining the educational progress of students and the success of school programs for program improvement planning purposes.

BILINGUAL EDUCATION

Students whose primary languages are languages other than English are provided appropriate assistance through the district's English as a Second Language Program (ESL) until they are able to use English in a manner that allows effective, relevant participation in regular classroom instruction.

Parents who are not able to use English in a manner that allows effective, relevant participation in educational planning for their student will be provided with relevant written, verbal or signed communication in a language they can understand.

BREAKFAST/LUNCH PROGRAMS

The district participates in the National School Lunch and School Breakfast program(s).

Free and reduced-price meals are available for students unable to pay the full price for meals. General information, eligibility criteria and confidential application forms are available through the office.

COUNSELING AND GUIDANCE PROGRAM

The district's counseling and guidance program is designed to involve all staff and parents in the educational, personal/social and career development of students.

Counselors may provide such services as academic counseling for students and parents, including assistance and information in the area of scheduling, forecasting, assessments, alternative educational programs, progress towards meeting local and state graduation requirements, scholarship and college

entrance requirements and identification of district, community and state-wide resources for students with academic, personal/social or other needs.

Counselors are also available to assist students with academic, social and personal problems and define and arrive at positive solutions through a variety of conference settings.

Students generally schedule appointments to see a counselor through the counseling office. Prior notice to a teacher that a student will be missing class may not always be possible because of the emergency nature of many of the appointments.

Teachers may refer a student to a counselor by contacting the counselor directly or contacting the principal. Teachers interested in arranging a conference with a counselor and a particular student and/or parent should contact the office.

Counselors and teachers with counseling responsibilities are expected to fully respect the right of privacy of those with whom they enter counseling relationships. Confidential matters are not to be discussed over the telephone.

Confidentiality is not to be abridged except:

1. Where there is clear and present danger to the student or others;
2. To consult with other professional persons when this is in the student's interest; or
3. When the student waives this privilege in writing.

HEALTH SERVICES PROGRAMS

The district has an established health services program which provides:

1. Pertinent health information on students, as required by Tennessee statutes and regulations;
2. Health appraisal services, including screening for possible vision or hearing problems;
3. Health counseling for students and parents when appropriate;
4. Health care and first-aid assistance that is appropriately supervised and isolates the sick or injured child from the student body;
5. Control and prevention of communicable diseases as required by the State Health Division and the county health department;
6. Assistance for students in taking medication according to established district procedures;

Homebound instruction may be provided to any student whose health or impairment causes him/her to be absent from school for a minimum of ten (10) consecutive days. A physician's statement substantiating such absence is required in order for the district to authorize homebound instruction. Services are provided three hours a week, with a homebound teacher present.

The homebound teacher shall receive assignments from the regular teacher/teachers. The classroom teacher is responsible for assigning grades during the time the student is homebound.

LIBRARY/MEDIA SUPPORT SERVICES

Teachers should contact library/media staff for assistance in obtaining audiovisual materials and equipment, computer software, video tapes, and other instructional media materials maintained by the district.

Additional supplemental materials may also be available through the local education service district and/or state library system.

A professional collection of books and current periodicals is also available for staff use in the library. Materials may be checked out through library staff.

Teachers may schedule with staff to bring entire classes to the library for project work, as appropriate. Individual students may be admitted for specific project work during class time with a note from the student's teacher.

MULTICULTURAL EDUCATION

The district is committed to an educational system that will prepare students to function effectively and cooperatively in a multicultural society.

The development of community partnerships and a curriculum that uses every opportunity to present the many ethnic, racial and religious strands that are a part of the American fabric provide a process for incorporating multiculturalism into the district's educational program.

Instructional materials at all grade levels are expected to reflect and fairly portray the history, contributions and culture of both men and women and of various ethnic groups in society.

PREGNANT/PARENTING STUDENT PROGRAMS

The district advocates the right to continued public education for all pregnant and parenting students. A pregnant and parenting student should be encouraged to continue with their educational program and to participate in all school-sponsored activities unless physically unable.

Teachers are expected to work cooperatively with counselors, parents and students in the development of individualized educational programs or services, or both, to address the needs of pregnant and parenting students when their educational needs cannot be met by the regularly provided school program.

PSYCHOLOGICAL TESTING SERVICES

Psychological tests, excluding intelligence tests, may be administered to student only by licensed psychologists employed for this purpose or by interns under their supervision.

Psychological evaluations may be made only with the informed and written consent of parents.

All student records, including psychological records of students are confidential. Written parental consent is required prior to the release of any such data.

SECTION 504 SERVICES

SPECIAL EDUCATION SERVICES

Students ages 3 through 21 living in the district that have been evaluated and found eligible for services or programs for students with disabilities are served by the district's special education department.

The related services and educational programs provided are designed to meet the needs as specified by the student's Individualized Educational Program (IEP).

Students with disabilities are to be educated with students without disabilities to the maximum extent possible. Special placements or separate schooling are provided only when the nature of the disability is such that education in the regular classroom with the use of supplementary aids and services cannot be achieved satisfactorily or affects the health or safety of the student or others.

Placements are made by the child's IEP team, which consists of special education staff, the student's teacher, or if the student does not have a regular teacher, a teacher qualified to teach a student the same age, the student's parents, the student when appropriate and other individuals at the discretion of the parent or district.

Teachers with questions regarding the referral and placement process should contact a special education staff member.

All teachers are expected to work cooperatively with special education staff to modify curriculum, instructional strategies and grading as necessary to meet the needs of a student's IEP.

TITLE I PROGRAMS

All K-3 and grades 4-5 schools have been identified as school-wide Title I schools. All students in these schools are eligible to participate in instruction and activities funded with Title I money.
