

Hayley Cloud- West Chester Elementary Teacher of the Year 2016-2017

Inspiration..leadership..student-centered. These are a few words to describe West Chester Elementary's Teacher of the Year. Hayley Cloud began teaching in 2012 and instantly won the hearts of her students as a teacher who truly cares for them. Today Hayley teaches third grade and is still working to reach every student in her classroom. Hayley grew up in Jackson, Tennessee. She earned a Bachelor of Science in Elementary Education from the University of Memphis in 2012. Soon after graduating and beginning her career, Hayley married Adam Cloud. They became parents to a spunky, redheaded little girl named Sadie in 2015. She is currently working on obtaining a Master of Arts in Curriculum from the University of Phoenix. That degree will be completed in August of this year. She is also a Hope Street Group Tennessee Fellow, where she works to inform policy, amplify teacher voice, and serve as a spokesperson for positive change in education, all while focusing on improving outcomes for children.
